🐙 Raman-Nagar

SUMMARY

Frontend Developer with 4 years of experience building production-grade web applications, scalable admin platforms, and responsive user interfaces using React, Next.js, TypeScript, Redux Toolkit, and modern UI frameworks. Experienced in frontend architecture, REST API integration, server-state management, RBAC, complex workflow builders, form validation, internationalization, performance optimization, and accessibility. Strong experience collaborating with backend, mobile, design, and product teams to deliver end-to-end features in Agile environments.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, TanStack Query, RTK Query, React Hook Form, Zod, React Flow, React Query Builder, Tailwind CSS, Material UI

Backend: Node.js, Express.js, Prisma, Mongoose, MongoDB, REST APIs

Cloud & DevOps: AWS EC2, ECR, S3, Docker

Tools: Git, GitHub, GitLab, Postman, Jira, Figma

WORK EXPERIENCE

Whitelotus corporation

Front-end developer

Sep 2025 - Present

- Built the frontend of wemindGo from the ground up — an invoice management platform supporting manual invoice workflows and eFaktura-to-SEF (Serbian e-invoicing standard) synchronization.
- Architected scalable frontend using Next.js, TypeScript, and TanStack Query; implemented server-state management, caching, loading states, and error handling across all API integrations.
- Implemented internationalization with next-intl supporting Serbian, Russian, and English for a multilingual production experience.
- Deployed and managed the application on AWS EC2, containerized using Docker, with static assets served via S3 and images managed through ECR.
- Collaborated with backend and mobile engineers to define API contracts, resolve integration issues, and deliver end-to-end features from Jira tickets and Figma designs.

Dream Cyber Infoway

Frontend Developer

July 2023 - June 2025

- Built The Credit Pros admin dashboard from scratch — implementing RBAC authentication, complex administrative workflows, and scalable frontend architecture using React.js, Next.js, TypeScript, Redux Toolkit, and Material UI.
- Developed a visual workflow builder using React Flow and advanced search/filtering using React Query Builder.
- Built and validated complex forms using React Hook Form and Zod, ensuring reliable data entry for critical business workflows.
- Integrated REST APIs using TanStack Query and RTK Query with caching, server-state management, and optimized data fetching strategies.
- Conducted code reviews with a focus on accessibility, scalability, and maintainability across a cross-functional team.

Leogic Technologies

Full-Stack Developer

June 2022 - July 2023

- Built full-stack applications using React, Redux, Tailwind CSS, Node.js, Express, and MongoDB.
- Created RESTful APIs and optimized MongoDB queries while collaborating with cross-functional teams to deliver modern UI/UX.
- Used Git and Agile development practices for version control and team delivery.

PROJECTS

wemindGo – Invoice Management Platform

September 2025 - Present

Next.js, TypeScript, TanStack Query, next-intl, AWS (EC2, ECR, S3), Docker

Frontend architected from scratch for invoice sending/receiving workflows and eFaktura-to-SEF (Serbian e-invoicing standard) synchronization. Implemented multilingual support (SR, RU, EN), full server-state management with TanStack Query, and deployed via Docker on AWS EC2 with assets on S3.

Codeez (Admin Dashboard)

December 2024 - June 2025

Next.js, Redux, Tailwind CSS, Node.js, Express, Prisma, MongoDB.

Created a learning management dashboard covering courses, leads, trainers, comments, and reviews.

The Credit Pros (Admin Dashboard)

July 2023 - January 2025

Next.js, TypeScript, Redux Toolkit, RTK Query, Material UI, React Flow, React Query Builder, React Hook Form, Zod.

Developed an enterprise admin dashboard with RBAC authentication, visual workflow building, advanced query-based search, and robust form validation.

Leogitech Consultancy Services (React js + Node.js)

June 2022 - July 2023

React, Redux, Tailwind CSS, Node.js, Express, MongoDB.

Built a digital consultancy service platform with CMS for portfolios, services, and contact. Delivered web, app, AI/ML, and blockchain solutions.

EDUCATION

Swami Vivekanand College of Engineering, Indore

Bachelor of Technology - 7.2

2017 - 2021
